

REDCIFF REVIEW

VOLUME 2

REDCIFF, ALBERTA, FRIDAY, JULY 5, 1912.

NUMBER 27

\$15,000 REAL ESTATE DEAL

Town Site Owners Sell Several Pieces of Business Property.

The largest real estate transaction that has taken place in Redcliff this year was negotiated this week between the Redcliff Realty Company and Mr. H. H. Moore, of Calgary, which resulted in the transfer of several pieces of real estate in the business section of Redcliff to that gentleman for the sum of \$15,000.

Mr. Moore is a civil engineer and was the engineer who surveyed and platted the townsite of Redcliff, little less than three years ago and has been watching the growth of Redcliff ever since with a view of investing here, and has decided that now is the time, as the property is steadily going up in value and with her four manufacturing establishments and more coming and with a pay roll of \$10,000 a month at the present time, which is bound to increase in the near future, he could see no better place for real estate investments than in Redcliff.

This shows that while city and town property in other parts of Western Canada is practically at a standstill, Redcliff property looks good to the man looking for safe investments.

There is another large real estate deal on which involves several times the amount of the above deal which is expected to be closed in a few days.

DOMINION DAY CELEBRATION

Last Monday being Dominion all the manufacturing plants and stores were closed and a large part of the people of Redcliff spent the day in Medicine Hat, where the day was fittingly celebrated. In addition to the civic parade, outdoor sports and the fire works, the 101 Ranch Show gave an afternoon and evening performance which was witnessed by a large crowd.

Revelstoke to Have C. P. R. Hotel.

WICACAP, July 3.—In announcing an addition to the east side of the Royal Alexandra hotel Tuesday to contain 40 rooms, Hayler Reid mentioned that the C. P. R. contemplated building a hotel at Revelstoke for the purpose of enticing daylight passenger traffic on the far side of the mountains.

BREVITIES

Mr. Erol Herst, who has been employed by the Brick & Coal Company for some time past, left for Illinois last Saturday night.

Mr. Hubert Kelly arrived in Redcliff last Saturday night, spent Sunday here, leaving for Winnipeg early Monday morning.

Mr. W. T. Lockwood left last Saturday night for a short visit to his old home in Ohio. He will return to Redcliff in about three weeks.

The Redcliff Realty Company, having their drilling machinery practically set up near the Ogilvie mill site at the Hat and will soon commence drilling another gas well for that city.

Mr. and Mrs. "Monty" Woodcock, Mr. and Mrs. Richard Hodge, Miss Ethel White Miss Aimee, Woodcock and Dr. E. W. Brown mortuary out to the Cypress hills last Sunday in Dr. Brown's and Mr. Woodcock's machines.

Mr. and Mrs. D. Broadfoot and family left Wednesday night for Brown's Landing, on Gull Lake. Mr. Broadfoot will return in a few days but Mrs. Broadfoot and children will probably remain for the balance of the summer.

Donald MacGillivray and family moved into their new house on the hill today. This is one of the finest residences in Redcliff.

Mr. James Chadwick and family will move into the house vacated by the MacGillivray family and which he bought recently. They are living in Medicine Hat at present.

DIGS UP SEVEN SKULLS AND OTHER REMAINS

While grading on the road bed of the Southern New England railway near Expendence, B. L. last Wednesday seven skulls and other human bones were uncovered by a giant steam shovel.

An investigation revealed that the skull that dug into a burial ground dating back previous to the landing of Roger Williams, and was a casualty by the Naragansett Indians and their descendants.

Customs Receipts at Victoria Leap

VICTORIA, July 3.—Customs returns here for the first six months are \$1,137,322, as compared with \$271,142 for the same period in 1911.

REGINA HIT BY CYCLONE

About 40 People Killed 125 Injured and Property Loss of Several Millions.

About 6 o'clock last Sunday afternoon the worst cyclone that has ever struck Canada swept over the city of Regina, the capital city of the province of Saskatchewan, leaving death and destruction in its path. At least 40 people were killed and about 125 injured. The property loss will run up into the millions. The storm struck the business section and the best part of the residential section and left nothing but ruin in its path. The path of the cyclone was about four city blocks wide, taking in Lorne, Smith, Cornwall and McIntyre streets.

Following is a partial list of the buildings destroyed: The Y. M. C. A., the Y. W. C. A., Carnegie Library, Methodist church, Presbyterian, Baptist church, the Land Titles office, Provincial telephone exchange building and a large number of office buildings, warehouses, railway buildings, grain elevators, etc., and over 250 residences.

The local militia organizations and the mounted police are patrolling the affected districts.

Offers of relief are coming from all sections of Canada and already a large sum has been subscribed.

About 350 families were rendered homeless and all that a large number of them have is the clothing they had on.

Church Notes.

The sacrament of the Lord's Supper will be dispensed at Borell on Sabbath next and at Redcliff on the following Sabbath.

The Rev. G. Ernest Forbes, B. A., of New Gleng, Scotland, is also visiting on Tuesday to visit Mrs. Forbes' parents, Rev. and Mrs. Gordon. Mr. Forbes came west to the meeting of the General Assembly and there after visited the west coast. He then conducted a series of special services at Hinton and returned to his home at Borell on Sunday and take part in the service here also. Mr. Forbes' congregation was the first in the Maritime provinces to undertake the full support of a missionary in the foreign field. His present ministrations are Rev. and Mrs. L. L. Young.

The Rev. L. H. MacLean, M. A., of Pleasanton, Scotland, is also visiting on Tuesday to visit Mrs. MacLean's parents, Rev. and Mrs. Gordon. Mr. MacLean has been to the mountains and has been preaching in the First Church, Vancouver. His congregation is one of the oldest in connection with the Church of Scotland in Canada and came into the union only about six years ago. He will be in town here next week and will be in the city for public office.

His father, the Rev. Joseph Hughes Wilson, moved to Georgia, where he was for two years, and later preached in various churches in North and South Carolina.

Young Wilson entered Davidson college at the age of 17. After two years he entered Princeton, from which he was graduated in 1882, and then studied law in the University of Virginia, receiving the degree of bachelor of law in 1885. He received the degree of bachelor of philosophy from John Hopkins University in 1887, that of doctor of law from Wake Forest University, North Carolina, in 1888, and that of doctor of literature from Yale at its Bicentennial celebration.

Prof. Wilson occupied the position of professor of history in Bryn Mawr College, and was afterwards professor and history and political economy in Wesleyan University.

Just as long as young Wilson persists in trying to abstract himself from there will be an oversupply of chorus girls.

Threaten Retaliation. Toronto, July 4.—United States merchants threaten retaliation on the British West Indies for entering a preference pact with Canada, it is declared here.

DAVIDSON BUILDING SOLD

The Redcliff Realty Company purchased of Mr. O. H. Davidson, this week, the partially built building, in front of the Redcliff Hotel, and standing on lot 17, block 84, and have let a contract to MacLellan & McLean for its completion. The contractors will commence the work in a few days. This is to be a two-story brick building and the first floor will be finished for store purposes, while the second floor will be added into eight rooms and will be made an addition to the Redcliff Hotel. Several parties are anxious to rent it, one for a hardware, one for a barber shop and pool room and another for a picture show house. A lease will undoubtedly be signed by one of the three just as soon as it is finished, which will probably be about the middle of August.

WILSON AND MARSHALL

Nominated by the Democrats for President and Vice-President of the United States.

Governor Woodrow Wilson, of the state of New Jersey, was nominated by the Democratic party for president of the United States last Monday afternoon on the 40th ballot. The convention had been in session for a week and when the announcement was made that Wilson had been nominated, the delegates were so tired out that there was only a short demonstration of approval. Senator Storer, who led the fight for Camp Clark, moved that the nomination be made unanimous, which was done.

Governor Thomas R. Marshall, of the state of Indiana, was nominated for vice-president.

Both of these gentlemen are known as progressive statesmen, having advocated several progressive measures now before the people of the United States, such as the popular election of United States senators, presidential preference primary, the initiative and referendum and a lower tariff.

Governor Wilson, the presidential nominee, was born in the state of Virginia in 1856 and was baptised under the full name of Thomas Woodrow Wilson. He dropped the Thomas about the time that he completed his first book, and took his first position as a teacher. Since then he has been known simply as Woodrow Wilson.

His father and grandfather were educated men, prominent in their communities, and while not rich were able to give the aspiring young man a liberal education, and toward toward scholarship, however, that his earliest ambitions and ambitions in college he resolved to become a public man. To that end he studied law and long on his side, but his legal practice was not hearty and after 18 months of it he gave it up and with it, for years to come, his hope for public office.

His father, the Rev. Joseph Hughes Wilson, moved to Georgia, where he was for two years, and later preached in various churches in North and South Carolina.

Young Wilson entered Davidson college at the age of 17. After two years he entered Princeton, from which he was graduated in 1882, and then studied law in the University of Virginia, receiving the degree of bachelor of law in 1885. He received the degree of bachelor of philosophy from John Hopkins University in 1887, that of doctor of law from Wake Forest University, North Carolina, in 1888, and that of doctor of literature from Yale at its Bicentennial celebration.

Prof. Wilson occupied the position of professor of history in Bryn Mawr College, and was afterwards professor and history and political economy in Wesleyan University.

Just as long as young Wilson persists in trying to abstract himself from there will be an oversupply of chorus girls.

PLEASED WITH REDCLIFF

Manager of Contracting Firm Visits This City and is Greatly Impressed With It.

Mr. W. R. Sinks, manager of the Canadian Stewart Company, Limited, which concern has the contract to build the Ogilvie flour mill at the Hat, was in Redcliff recently and visited our manufacturing establishments and expressed himself as greatly impressed with our future.

Mr. Sinks placed an order for 500,000 brick with the Redcliff Brick & Coal Company to be shipped to Calgary for the Calgary Milling Company's plant and would have placed an order for 1,000,000 if they could have furnished them.

Mr. Sinks is a personal friend of Mr. Sherwin and he assured Mr. Sherwin that if he could influence any industries to locate in Redcliff he would do so.

ENTERTAINED AT DINNER

Mr. E. C. Daniels entertained Mr. and Mrs. H. O. Wheeler, the Misses Helen and Marion Sherwin and Dr. R. R. Storer and some Donald and Robert at a dinner at the Assiniboia Cafe at Medicine Hat on Dominion Day, after which they took in the afternoon performance of the 101 Ranch Show. Mr. Daniels was a very genial host and the party all had a very pleasant time.

Mrs. Storer, who had been sick for a few days previous, did not join the party on account of her health.

Will Commence Drilling for Oil

The Redcliff Realty Company have their new steel drilling outfit set up at Shelby, Montana, where they are under contract to drill a well with expectations of striking oil. The company for which they are drilling this well is composed mostly of Medicine Hat capitalists.

CAPT. LORD GUILTY OF NEGLIGENCE

British Board of Trade Also Says Titanic Disaster Was Due to Speed.

The British board of trade inquiry into the Titanic disaster was concluded last Wednesday and its report, which will be issued shortly, will state that the cause of the disaster was due to the negligence of Captain Lord, of the Californian, in not going to the relief of the Titanic when distress signals were sent up. The report will also state that the disaster was due to speed.

During the 35 sessions of the court of inquiry 58 witnesses have been examined and 25,091 questions were put to them.

Lord Mersey suggested that if Captain Lord saw the signals of distress and did not go to the relief he was possibly guilty of a gross misdemeanor.

Premier Arrives in England.

Boston, July 3.—Premier Borden and his colleagues arrived at Bristol this morning at 11 o'clock and were welcomed by the mayor of Bristol and the president and members of the chamber of commerce. The party are all well and had a pleasant voyage. Dominion Day was celebrated with great enthusiasm, the premier and his three colleagues speaking at a patriotic concert.

WHAT TO SAY ABOUT REDCLIFF

Redcliff is situated on the main line of the C. P. R. 173 miles east of Calgary, on the banks of the Saskatchewan river.

Natural gas is probably Redcliff's first and greatest asset—meeting the requirements of a great demand as may be made for manufacturing purposes.

Working coal mines on both sides of the river, and immense deposits cropping out yet unexplored.

Brick and other clay products are manufactured extensively and additional enterprises for this line of industry are in contemplation.

The business houses and residences are practically all of brick—home products.

Siliceous sands abound, tests of which have proven an excellent quality for glass making.

Industrial sites are donated to new enterprises.

Surrounding territory is in the heart of Alberta's wheat belt, and there are no more prosperous farmers in the whole of that area.

REDCIFF ALREADY HAS A flour mill that will grind 75,000 bushels of wheat per year or 525,000 bushels per year.

A large ornamental iron works that expects to employ 150 men before the 1st of September.

Two plants for making brick and clay products, the demand for which is increasing constantly.

One protestant church.

A fine, new, thoroughly modern brick school house.

An excellent gas lighting system, and mains laid throughout the city.

An assessed valuation of \$80,000 and a municipal tax levy of six mills.

As fine a three-story modern brick hotel as there is in the west.

A perfect system of water works—water pure as the mountain springs.

The first building erected in Redcliff was April 21, 1910, just two years ago.

VISITS REDCLIFF LAST SATURDAY

Rev. N. D. Keith, of Red Deer, Visits This City in the Interest of New College.

Rev. N. D. Keith, president of the Alberta Ladies College, was in town this week in the interest of this new educational project. It is being located at Red Deer in order to serve the north country as well as the south.

The college will be a residential school for girls and young women and is being built at a cost of \$150,000 to accommodate 80 students.

The courses of study will comprise the public and high school work, also music, domestic science, art and commercial work.

The fees will be kept as low as possible consistent with efficiency. They will run about \$340 per annum.

The college will be non-sectarian in the best sense of the word.

The college is being built by subscriptions received all over the province and the response has been very gratifying. Mr. Keith was well pleased with the town of Redcliff, and has received substantial encouragement from a number of our best citizens toward the building fund.

With our natural resources in the way of gas, coal, brick clay and silica sand and the beauty of the town's location, the facility of water supply and drainage and sewage disposal he predicts for Redcliff a very bright future.

Dr. Stoner showed him around the town and visited some of the brick plants, flour mill and the ornamental iron works.

Saved Child but Lost Her Life

LACOMBE, Alta., July 4.—After having rescued a child from the flames, Miss Doh, the eldest daughter of Mr. John Doh, a farmer residing in the vicinity of Lacombe, passed away in terrible agony on Monday morning.

The fire, which destroyed Mr. Doh's home, broke out on Sunday night.

The owner was absent at the time, the only occupants of the house being an old lady, a child and Miss Doh, whose heroic conduct led to the escape.

FRIDAY, JULY 6, 1912

THE FERRY ONCE MORE

Why no action has been taken as yet on the question of providing means of crossing the river to the southwest of Redcliff is more than we can understand.

The farmers to the number of 30, on the other side of the river, have signed a petition agreeing to give the necessary labor to grade a road down to the river on their side if the people of Redcliff will provide the means of crossing. It seems to us that the trade of 30 or 40 farmers is worth the cost of a ferry and we believe the business men of Redcliff will be showing very poor business judgment if they do not get back in this proposition and do all in their power to have a ferry built.

It has been suggested that a meeting be called for next Monday morning and see what can be done. We take the liberty of calling the meeting for the day suggested and fix the hour at 10 a. m. at the office of the town site owners. Everyone interested in this matter should be present and help the thing along.

It is impossible to lose others. It's hard to lose some friends and it's impossible to lose others. It's a heavy burden to be lost of how the women run after him. Don't wait for some one to die and leave you a fortune. Get busy and make it. Give notice how many opportunities overlook to get something out of you?

POINTED PARAGRAPHS.

(From the Chicago News)

Peas are here and most of the great ones are dead.

Women want a lot of powder when the enemy is in sight.

It's hard to lose some friends and it's impossible to lose others.

It's a heavy burden to be lost of how the women run after him.

Don't wait for some one to die and leave you a fortune. Get busy and make it.

Give notice how many opportunities overlook to get something out of you?

A college education will not hurt a young man if he will learn something after he graduates.

Forecast Imperial Naval Force.

The London Standard says: "The Imperial navy is coming. At the present we have the royal navy, the fleets and squadrons of the King of the United Kingdom. The time is not far distant when they will be transferred into the navy of the empire. Sentiment is growing in Canada to the height of national enthusiasm, and Canadian ministers are here to consider the best means to do so."

He has in his speech at the Dominion Day banquet:

"Canada is a little ashamed to sleep any longer in security behind the floating wall of steel provided and paid for by the people of the United Kingdom. The Canadian spirit wants that position of inferiority, but if it is necessary to find some method by which Canada will retain sufficient control, whether the desired communication be reached by giving the Dominion seats on the Council of Imperial Defence or by the creation of a board of admiralty for the whole empire, or by other means, we shall know in due course, perhaps before the end of the present summer."

Dying of Starvation in London.

LONDON, June 8.—Dean Bing, rector of St. Mary and St. Michael's church, says the families of the dock strikers are starving on account of the prolongation of the strike.

"Last week they had their few sticks of furniture in pawn," he said. "Now these have been parted with, and unless the public comes to their aid, lives will be sacrificed."

"I know exaggeration to say that people at Hoxton, Wapping and Canington are dying from starvation."

"There are cases before my committee where people have sworn that they have not eaten for two days. Some are so racked with hunger that they spend their time in bed, saying that there is nothing to get up for. One man has been seen around dressed only in a sack."

Not of her life. Miss Doh, after rescuing safety, remembered the presence of the child, but she was too exhausted to enter the burning building and succeeded in rescuing the child, but the injured she sustained in doing so later.
